

Literacy

Reading - We will be continuing to develop the children's comprehension skills through weekly guided reading sessions.

Writing - This term the children will look at writing instructions in the form of a recipe. They will look at the diary of Samuel Pepys and recreate a diary entry.

Linking in to Science, the children will write a fact file about fire engines.

Art and Design Technology

In Art we will exploring the city of London and its landmarks. We will be using collage as a form of representation to explore shape. Children will also look at fashion designers and be designing and creating their own fashion t-shirts.

History

This term we will be building our knowledge of the past through finding out about The Great Fire of London. The children will learn about key features of the events through asking and answering questions and discussion. The children will look at similarities and differences between London now and in the past, comparing how people live now and how they lived in the past.

Science

In science we will be learning about animals including humans. We will be exploring and comparing differences between things that are living, dead and things that have never been alive. We will learn that animals including humans have offspring and how they grow into adults. We will look at the basic needs for survival and the importance of exercise, hygiene and a healthy diet.

Time Travellers!

Year 1

PE

This term we will be learning basic skills of tennis and netball/basketball through modified games. We will look at different types of throws including how to bounce pass. We will develop coordination with a tennis racquet and complete short rallies with increasing control.

Life Curriculum

This term we will be learning about emotions, people who help us in our community, how we ask for help and managing friendships.

Music

In music we will be exploring the sounds of different instruments and using them to play alongside topic songs we learn. We will listen to high quality recordings and comment on the different instruments we can hear and our likes and dislikes.

Maths

This term we will be developing and securing our knowledge of number and place value to 50. This will include knowledge of counting in 2s, 5s and 10s and odd and even numbers. We will be using non-standard and standard units to build confidence in measuring length and height. We will recap the value of money and will apply our growing knowledge of number and calculation strategies to measures of money.

Computing

This term we will be exploring the iPads and will learn how to use simple functions to take photos, videos and audio recordings for our own fact shows on the Great Fire of London. We will think about how we use technology in our own lives and learn ways to stay safe on the devices we use.

Religious Education

The focus this term will be to explore 'Who is Jewish and how do they live?' We will explore Jewish stories, celebrations and prayer.

Spiritual Development

We will develop an understanding of how historical events in the past have had an impact on our everyday lives.
